

What Is The South Dakota Family Planning Program?

The program exists to provide services to all people capable of reproduction who need and desire family planning services.

How Are Services Provided?

The South Dakota Family Planning Program staff provides education, counseling, nursing, medical, and birth control services. They are available for you to help maintain or improve your general and reproductive health.

The South Dakota Family Planning Program Is

CONFIDENTIAL — All services provided by our agencies are strictly confidential.

AFFORDABLE — Cost for services depends upon your income and family size. The South Dakota Family Planning Program is funded through Federal Title X & Title V dollars. Your fees & donations in addition to federal dollars help us to meet our budget needs which allows us to continue to provide quality reproductive health services to those in need.

CARING — Our team of professionals is concerned about you and strives to meet your needs in a caring manner.

PROFESSIONAL — Our health care team consists of nurses, health educators, nurse practitioners, and physicians. They work together with you to provide quality health care.

AVAILABLE — Services are provided for anyone regardless of age, gender, race, religion, nationality, or ability to pay. See back of brochure for more details as to where you can receive services.

How Can You And Your Partner Benefit From The South Dakota Family Planning Program?

We can help you:

IF you want to prevent sexually transmitted infections which could affect your future reproductive health, specifically your ability to have children.

IF you want to prevent an unwanted pregnancy.

IF you want to become pregnant.

IF you want to know more about how your reproductive system functions.

How Can We Help?

We can provide the following services

INFORMATION:

Individuals receive education and information on reproductive health and related issues. Speakers are also available to schools, service organizations, churches, and community groups.

MEDICAL CARE:

South Dakota Family Planning clients receive an annual physical examination which is specific to their reproductive need. Referrals are made for medical services not provided at the clinic.

CONTRACEPTIVE SERVICES:

Clients receive contraceptive information and supplies. The contraceptive method depends upon the client's wishes, or the client's health needs as determined by a physical exam.

INFERTILITY SERVICES:

Clients experiencing infertility problems may receive any of the services provided by the agency. For more in-depth testing and treatment the agencies make referrals to physicians or social services.

Diagnosis And Treatment Of Sexually Transmitted Infections (STI):

Each agency provides testing and treatment of sexually transmitted infections. STI (formerly called VD) testing and treatment is available for both men and women.

Pregnancy Testing:

Pregnancy testing is available at family planning clinics. Follow-up counseling and/or referral are a part of the pregnancy testing.
